Wine Tasting

Wine tasting is an important part of wine appreciation. Wine tasting is a sensory experience, as you smell and taste the wine. This can also be a social experience if you are with friends, or it can be done alone. Wine tasting is often used as a way to learn about different types of wines and how they vary from one another (i.e., dry white vs sweet red). It's also a great way to learn more about the wine industry by learning about the grapes used in each type of wine and their origins in different countries around the world!
